If you’re not BUYING
You’re not RECYCLING

Recycling is a THREE-STEP process.
We must include all segments in order to succeed.

1. Collect your recyclables and take them to the nearest collection facility or put them out for curbside collection. Processors clean and prepare the recycled material for use by manufacturers.
2. Manufacturers make new products from the collected materials.
3. Consumers purchase recycled content products and, if suitable, put them back into recycling collection programs

Don’t let a good thing go to waste
CLOSE THE LOOP! BUY RECYCLED.

Reduce, Reuse, Recycle

Instead of throwing away items we no longer need, we can make sure they find their way to the next stage in their life cycle. At home, at school, at the office, or anywhere, we can REDUCE the amount of waste we produce; REUSE an item or find someone who can use it; or RECYCLE products, so that our valuable natural resources are used again and again.

REUSE—Donate Used I

Donations of clothing, furniture, and varying household items are accepted at the facilities listed below. Household items could include, but are not limited to, books, magazines, tools, toys, sports equipment, computers, copiers, printers, typewriters, records, cassettes, CD’s, VHS tapes, or DVDs. Food donations can be made to the Brazos Food Bank or the Salvation Army. Please call merchants in advance to verify acceptance. Some locations purchase used materials.

Directory

Automobile Waste

Automotive wastes can be very harmful to the environment when improperly disposed. Illegal dumping leads to contamination of our drinking water supply. There are several options locally for safe and legal disposal of various automotive wastes. These locations are identified below with accepted wastes listed for each.

- A = Antifreeze

B = Batteries

TF = Transmission Fluid
- F = Oil Filters

O = Used Oil

Check with facility to verify acceptance and current fees.
- R = Radiators

T = Tires
